

Converte™

seed primer

The Converte universal natural plantfood was scientifically designed to feed soil and plant systems nutrients in a balanced formulae to enable health benefits to flow from the soil to the plant to livestock and to human populations.

Converte has been extensively trialled and tested in the Riverina region of NSW over a period of 10 years leading to the launch of Converte UNP in 2013. This liquid concentrate is derived from natural resources and is compounded according to a system of ecological balance with chelation and natural chemistry. Converte contains mineral trace elements, phytoproteins, vitamins, seaweed extracts and plant hormones that together help to restore natural soil microbes and micro-organisms in soils.

This seed primer has been specially formulated to deliver the most complex and balanced nutrient treatment directly into the seed. The seed embryo then has higher access to nutrients to help germination, and build vigorous growth towards maximum yield.

Objectives of seed priming

Seed priming is another pathway to more nutrient uptake. This practice aims to build a more vigorous root system. During priming, nutrients are taken up by the seed. When sown, the elevated nutrients help early germination of the growing embryo through nutrient mobilisation. Roots emerging from germinating seed already have it's share of applied nutrients and empowers vigorous searching of soil nutrients.

For use with conventional and organic seed in:

Horticulture Broadacre Home garden
Pasture improvement Feed stock improvement

Increased depth and breadth of nutrients for soil, plant, animal and human health

Nitrogen	Boron
Potassium	Molybdenum
Phosphorus	Cobalt
Organic Carbon	Chromium
Calcium	Selenium
Magnesium	Nickel
Sulphur	Silicon
Iron	Strontium
Manganese	Zinc
Copper	

Proud sponsor of

Concentrate Application Guideline	
Usage	Application Rate
Broadacre	Spray seed with 5 litres per tonne mixed with 3-4L of water
Pasture/ home gardens/ turf	Mix 1:1 with water than spray seeds 1-2 hours before planting Do not soak

Available in 1000L, 20L, 1L
