

CELL+ CHARGE

The world's most potent source of natural fulvic acid for human health.

Just a few drops a day can...

- Improve gut health
- Increase nutrient absorption
- Reduce inflammation
- Boost immunity
- Support deep sleep
- Improve exercise recovery
- Increase energy levels

Nutrition as nature intended.

Fulvic acid has a number of reported health benefits including:

- Enhanced transport of vitamins and minerals to cells throughout our body
- Maintaining cellular hydration and electrolyte balance
- Shuttling of glucose to muscle cells supporting enhanced energy generation, endurance and recovery
- Improved gut health and cellular communication across the gut surface membrane, reducing ingress of toxins to the bloodstream and associated inflammation responses
