## Premium Bio-Active Fulvic Acid 10.4 % fulvic acid

### Premium Fulvic Acid – Natural Chelation

For specific recommendations for your nutrition programme, please contact Converté.

This is a revolutionary plant food product extracted from a rare plant matter deposit consisting entirely of naturally occurring ingredients. Safe for the user and the environment, our premium fulvic acid is designed to work with a grower's existing nutrient feed formula to substantially increase yield and performance. This product contains a wide range of organic acids not found in other plant growth enhancement products. It is easy to use for hydroponic or outdoor applications.

Premium Fulvic Acid presents several favorable characteristics:

- ❖ Non-toxic
- ❖ Non-irritating to plants
- ❖ Fully biodegradable
- ❖ Pleasant odor
- ❖ Effective with hard or soft water
- ❖ Excellent stability
- ❖ 100% natural, water extracted ingredients
- ❖ Colloidal
- ❖ Rich in organic acid content
- ❖ Safe for animals and humans as a trace mineral supplement
- ❖ Active ingredients: Organic acids >10%, Minerals >1.0%
- ❖ High CEC values between (650 and 1200 cmol/kg)

Available in 5, 20 and 1000  
litre packaging
