

# LIQUID PLANTFOOD (SUPER CONCENTRATE)

UNIVERSAL NATURAL PLANTFOOD (UNP)

## Plantfood Bio Stimulant

Converte universal natural plantfood was scientifically designed to feed farming systems nutrients in a balanced formulae to enable health benefits to flow from the soil to the plant to livestock and to human populations.

This unique product has been extensively trialled and tested in Australian growing conditions over a period of 10 years leading to the launch of Converte UNP in 2013. This liquid super concentrate is derived from natural resources and is compounded according to a system of ecological balance with chelation and natural chemistry. Plantfood contains mineral trace elements, phytoproteins, vitamins and phyto-chemicals that together help in enhancing natural soil microbes and micro-organisms in soils, balance bacteria: fungi ratios and drive nutrient availability and cycling.

It is formulated to:

*Feed organically with supplemental trace elements* microbes promoting biological soil formulation as well as mycorrhiza promoting root-feed efficiency.

*Increase the pool* of macro N & P and trace elements available to the plant.

*Improve by chelation*, nutrient transfer to plants.

*Provide the plant with prophylactic [preventative] levels of trace elements* to avoid "hidden" deficiencies [von Liebig production limitations]. *Improve soil and plant health* giving additional resistance to weather extremes e.g. drought and frosts

*Trial observations and results have shown:*

- Improved soil water holding ability
- Increased soil organic matter
- Improved soil aeration and drainage
- Enhanced utilization of NPK fertiliser
- Decreased nutrient leaching
- Sustained Yields
- Enhanced plant health and resilience

**Storage and Handling:** Compatibility, and/or performance cannot be guaranteed when combined with other products. Store in a cool, dry area, out of direct sunlight. Agitate or shake well before use.

**Safety Directions:** Product is non hazardous. Keep out of reach of children.

**Manufactured by:** Converte Pty Ltd, PO Box 8159, Griffith, NSW, 2680

Manufactured by Converte Pty Ltd ABN

For use with conventional and organic production on: Horticulture, Broadacre, Hydroponics, Home Garden, Pasture Improvement.

Works most effectively when applied 75% to soil and 25% to plant at early stages in plant emergencies.

## Concentrate Application Notes

Usage	Application Rate
Broad acre/pasture improvement	Spray 250ml /ha (or 100ml/acre)
Horticulture	Spray 250ml /ha (or 100ml/acre)
Hydroponics	Mix 5000L water: 1L
Home gardens	Mix 10L water : 10 ml

Available in 100ml, 5 litres, 20 litres, 110 litres and 1000 litres packaging
