

# BIO-RESTORE LIQUID CARBON

A NATURAL SOLUTION FOR LAND RESTORATION

FOR LAND REVEGETATION, REHABILITATION, AND INPUT FOR SOIL CARBON PROTECTS

## Regenerating Soil with - Liquid Carbon

**Converte Bio-Restore** liquid carbon is designed to restore the health of the soil and re-establish communication between plants and soil biology. The liquid carries a high carbon content to restore soil function and is packed with macro and micro nutrients and naturally chelated. The liquid carbon can be used in agricultural soils impacted by over use of chemicals, in mine-site land rehabilitation and in the restoration of degraded landscapes.

**Bio-Restore** is designed to work immediately on the soil biological processes. Can be used with other agricultural inputs and requires some in ground moisture for best results.

Bio-restore is formulated to:

**Feed organically with supplemental trace elements** microbes promoting biological soil formulation as well as mycorrhiza promoting root-feed efficiency.

**Increase the pool** of macro N & P and trace elements available to the plant

**Improve by chelation**, nutrient transfer to plants.

**Provide the plant with prophylactic [preventative] levels of trace elements** to avoid "hidden" deficiencies [von Liebig production limitations].

**Improve soil and plant health**, giving additional resistance to weather extremes e.g. drought and frosts.

**Provide essential carbon** for housing microbial activity in the soil.

For use with conventional and organic production on: Horticulture, Broadacre, Hydroponics, Home Garden, Pasture Improvement, orchards, vineyards

**Other uses** include mine site rehabilitation, landscape restoration and soil improvement.

## Application Guideline

Usage	Application Rate
Farm Land	Spray 500ml /ha
Contaminated Land Sites	Spray 500ml /ha
Reclamation/Mine Sites	Spray 500ml /ha
Home land Sites	Mix 10 litre water: 20 ml
Recommended frequency 2 times per year until healthy growth is restored.	

**Storage and Handling:** Compatibility, and/or performance cannot be guaranteed when combined with other products. Store in a cool, dry area out of direct sunlight.

Agitate or shake well before use.

**Safety Directions:** Product is non hazardous. Keep out of reach of children.

Manufactured by: Converte Pty Ltd, PO Box 8159, Griffith, NSW, 2680

Available in 5 litres, 20 litres and 1000 litre packaging
