

PREMIUM FULVIC ACID

PREMIUM BIO-ACTIVE FULVIC ACID 4.5 % FULVIC ACID FROM NON FOSSIL FUEL RESOURCE

CONTAINS:

4.5% FULVIC ACID, 0.15% HUMIC ACID, 70 TRACE MINERALS AND ELEMENTS, 18 AMINO ACIDS, 22 FLUORIDE, 21 ANTIOXIDANTS, PH 3.9, RICH IN PHYTOCHEMICALS.

Premium Fulvic Acid - Natural Chelation

For specific recommendations for your nutrition programme, please contact Converte. This is a revolutionary trace mineral and organic acid complex extracted from a rare plant matter deposit consisting entirely of naturally occurring ingredients.

Safe for the user and the environment, our premium fulvic acid is designed to work with a grower's existing nutrient feed formula to substantially increase yield and performance. Can be used in plant and animal health applications. Contains phytochemicals important for plant and animal health and enhanced immune response and resilience.

Premium Fulvic Acid Application:

- Compatible with all nutrient programs.
- Apply 1 litre/hectare
- Can be added to NPR inputs to improve efficiency.
- Use 1 ml to every 5 litres water for indoor systems.

Storage and Handling:

Compatibility, and/or performance cannot be guaranteed when combined with other products Store in a cool, dry area out of direct sunlight.

Agitate or shake well before use.

Safety Directions: Product is non hazardous. Keep out of reach of children.
