

# BIO - RESTORE SLOW RELEASE

A NATURAL SOLUTION FOR LAND RESTORATION

**Converte Bio-Restore** slow release pellet is designed to restore the health of the soil and re-establish communication between plants and soil biology. The pellet is a multi-mineral coated slow release packed with macro and micro nutrients and naturally chelated. The pellet can be used in agricultural soils impacted by over-use of chemicals, in mine site land rehabilitation and in the restoration of degraded landscapes.

**Bio-restore** is designed to breakdown in the soil over approximately 18 months. It's long life in the soil means that the pellet can recharge with additional moisture / irrigation.

**Bio-restore** is formulated to:

**Feed organically with supplemental trace elements** microbes promoting biological soil formulation as well as mycorrhiza promoting root-feed efficiency.

**Increase the pool** of macro N & P and trace elements available to the plant.

**Improve by chelation**, nutrient transfer to plants.

**Provide the plant with prophylactic [preventative] levels of trace elements** to avoid "hidden" deficiencies [von Liebig production limitations].

**Improve soil and plant health**, giving additional resistance to weather extremes e.g. drought and frosts.

**Provide essential carbon** for housing microbial activity in the soil.

**For use with conventional and organic production on:**

Horticulture, Broadacre, Hydroponics, Home Garden, Pasture Improvement, orchards, vineyards

**Other uses** include mine-site rehabilitation, landscape restoration and soil improvement.

## Application Guideline

Usage	Application Rate
<b>Broadacre/ Pasture improvement</b>	80 kg / ha
<b>Horticulture</b>	100 kg / ha
<b>Orchards / Vineyards</b>	100 kg / ha
<b>Home gardens</b>	10 kg / quarter acre

**Storage and Handling:** Compatibility, and/or performance cannot be guaranteed when combined with other products Store in a cool, dry area out of direct sunlight.

Agitate or shake well before use.

**Safety Directions:** Product is non hazardous. Keep out of reach of children.

Manufactured by: Converte Pty Ltd, PO Box 8159, Griffith, NSW, 2680

Supplied in: 2kg, 10kg, 20Kg and 1t Bulker Bags
